IMPORTANT INFORMATION CORONAVIRUS:

During the Coronavirus period, we have implemented new procedures for the safety of yourself, other passengers and your driver

Our coaches will be fully sanitised prior to departing from our depot and again prior to your return from the destination. They will undergo a full 'Fogging' procedure on a regular basis.

Face coverings are compulsory when onboard the coach, so we kindly ask for you to bring your own or alternatively we will have some disposable versions available to purchase. Should you have medical reasons as to why you cannot wear a covering then please contact our office prior to travelling.

When the coach arrives, your driver will exit the vehicle, call your name and inform you of your allocated seat, then move away enabling you to step onboard. You will find alcohol-based hand sanitiser which we politely ask you to use. From here you are free to find your seat which will have your name tag visible. Family 'bubbles' will be seated together.

When disembarking the coach, the driver will step off first and signal showing that it is clear for you to leave following on from the row in front. We will be exiting the vehicle starting from the front rows.

During this pandemic, the onboard WC will not be available for use.

Do not travel if you show **ANY** symptoms of Coronavirus.

Regards,
Chandlers Coach Travel
